chem-bla-ics

As of April 3, I will be working as postdoc in the group of [Christoph Steinbeck](#) at the [Cologne University Bioinformatics Center](#), or simply CUBIC, for a year. Though no exact plans have been decided upon, the work will include [CDK](#), [CML](#), ontologies, [Bioclipse](#), semantic web technologies, [Jmol](#), and other interesting things. Research areas will at least include [QSAR](#), but I hope to touch bits of bioinformatics too.
