Pubchem, Xml, Bioclipse

Abstract

With the general framework set up for editing and validation of CML documents , it was fairly easy to support the PubChem XML file format schema too.

With the general framework set up for [editing and validation of CML documents](#) , it was fairly easy to support the [PubChem XML file format schema](#) too.

With the upcoming Bioclipse2 beta (scheduled next Friday), all you need to install on top of the Bioclipse2 core is the new XML feature.
