Cdk, Ruby

Abstract

Via Rich' blog, I was informed about the work by goesLightly on CampDepict, a Ruby-based application which uses the CDK for SMILES parsing and 2D diagram generation. With cdk-20060714.jar it's using pretty ancient code, and I have not seen a screenshot.

Via Rich' blog, I was informed about the work by goesLightly on CampDepict, a Ruby-based application which uses the CDK for SMILES parsing and 2D diagram generation. With `cdk-20060714.jar` it's using pretty ancient code, and I have not seen a screenshot.

Anyway, it's nice to see another blogger into the CDK :)
