Willighagen, E. (2022, November 21). Finding Mastodon accounts with Wikidata (a few SPARQL queries). *Chem-bla-ics*. <https://doi.org/10.59350/v08gc-ney75>

Keywords

Mastodon, Sparql, Wikidata, Rdf, Orcid

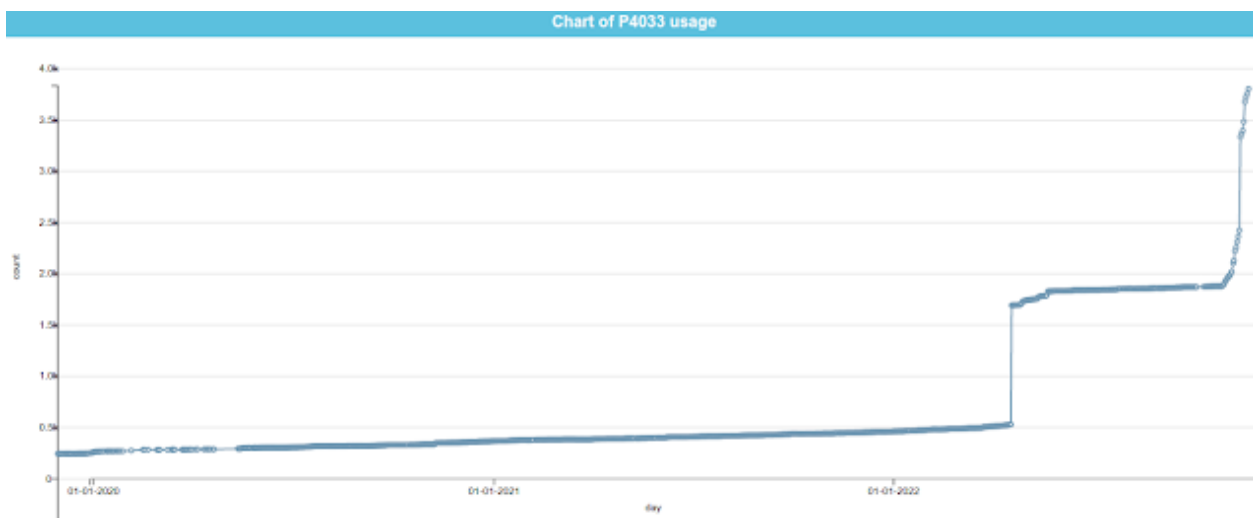

Abstract

There are multiple initiatives to support the migration from Twitter to Mastodon (see also this [blog post](#)). But Wikidata should not be forgotten here which has been tracking Mastodon accounts of things in their database:

There are multiple initiatives to support the migration from Twitter to Mastodon (see also [this blog post](#)). But [Wikidata](#) should not be forgotten here which has been tracking Mastodon accounts of things in their database:

So, here are some [Wikidata SPARQL](#) queries to see the uptake:

- [Universities with Mastodon](#)
- [All Mastodon accounts in Wikidata](#) (or [subset with also a Twitter account])([https://w.wiki/5\\$4S](https://w.wiki/5$4S))
- [Nobel Prize winners with Mastodon](#)
- [Academic journals with Mastodon](#)
- [People with Mastodon that published in a PLOS journal](#) (you can pick another publisher)
- [Find your co-authors with your ORCID](#) (just replace my ORCID with yours)

If you find yourself missing, back in April I [tweeted](#) (sorry) how you can find yourself and others in Wikidata and how to add your or their Mastodon account.
