Abstract

I am doctor now; I shall now be addressed as weledelzeergeleerde Egon; translating to something like quite-noble-very-knowledgeable, hahahaha. I'll put up a few photo's of the ceremony, which is actually quite formal at the Radboud University, later.

chem-bla-ics

I am doctor now; I shall now be [addressed as weledelzeergeleerde](#) Egon; translating to something like *quite-noble-very-knowledgeable*, hahahaha. I'll put up a few photo's of the ceremony, which is actually quite formal at the [Radboud University](#), later.

With this blog item, I would to thank everyone who left a message, sent email, etc with good luck messages. Very much appreciated! I'd also like to thank my supervisors, promotores [Lutgarde Buydens](#) and [Peter Murray-Rust](#) (he mentions the event [here](#)), and [Ron Wehrens](#) for their confidence in me and their guidance on the path towards the post-doc life. I also thank all those who attended my defense; I had a brilliant day, and actually enjoyed talking to those who took place in my promotion committee and who asked me the not-really-nasty-questions about my work.

CDK-Chemometrics in Metabolomics Unconference

For today, I organized a small, informal [unconference](#), oriented around the [CDK](#), chemometrics and metabolomics. I'm certain we will be online much of the day, as we typically do. The meeting will start around 10:00 [CEST](#), but we'll attend a seminar by [Marjana Novič](#) at 11:00 CEST. If you happen to be in [Nijmegen](#), just drop in on the Analytical Chemistry department. Otherwise, join the [#cdk](#) chat channel in the [irc.freenode.net](#) network.

What we'll do?? Hey, it's an unconference; we have no idea yet :)
