The identity of [domoic acid](#) has been under discussion (see [here](#), [here](#) and [here](#)). (And I very much like the [ChemSpider](#) service to make it easy to [copy data from ChemSpider into Wikipedia ChemBoxes](#); cheers!)

Now, my practical in next weeks [CDK Workshop](#) will use [Groovy](#) (please install it on your laptop!), and am hacking up example scripts for the course material, and came up with this script to download the structure of [domoic acid](#) from [PubChem](#) (CID:5282253):
